The power of storytelling... Experience stories as a vehicle for healing and wondrous insight. Bring your memories, both sad and joyous. Together we will explore stories that affirm, enrich and inspire us. Whether our losses are recent or long ago, we can tap into our natural capacity for healing. This workshop is useful and uplifting for those who grieve and for those who support others in their time of grief. Prepare to listen and be moved, to share and laugh, and search for meaning and grace in stories that honor and remember.

Space is limited. Please call 630-933-7525 to reserve your place for this moving event.

Admission is FREE.
